Lag/crash when extracting a
psarc archive, so i tried to make
a batch extractor. Dec 13, 2019
I'm here to warn you that there
might be a lag/crash in the
extraction process, so if you get
a lag/crash when extracting a
psarc archive, it might be

because of this script, so avoid it if you want to avoid a lag or a crash. Lag is because there's less bits per packet I guess, it's not really a crash, it's only a lag.

May 3, 2020 The new version of Psarc Extractor is here!

Make sure to read the update and the FAQ before making a donation to the project. I might be on discord.

Oct 20, 2020 I'm trying to extract the content of a psarc archive.

May 30, 2020 I changed the name of the windows folder.

Mar 15, 2019 I tried to make a new version of my psarc extractor script. From now on I only test it with fba and author ids. So I will only

accept patches and contributions for that. If you want to contribute a patch or anything else, go ahead and make any change you want with any fba/author id you want. The extrated data on the new version is compressed with pskzip, but I can use any compression algorithm if you want. Please read the update, the new version has some improvements, it's better than the one I had before. Oct 82138339de
